Citizen Response to a Violent Intruder

Alert  Lockdown  Inform  Counter  Evacuate

ALICE is based on premise that information, authorization, and proactive training are the key to surviving the Active Shooter.

- **Alert**: all are authorized to announce, no codes are used
- **Lockdown**: must include barricade training
- **Inform**: use technology to provide play-by-play information
- **Counter**: interrupt the skill set needed to shoot accurately
- **Evacuate**: get away from danger if possible

Passive vs. Proactive Response Strategies

**Why is Citizen Preparation in Proactive Response Necessary?**

- 25 years of mass shooting events have yielded a national average for the response time of Law Enforcement to an Active Killer scene.

Why did 54 students STAY for 5 minutes?
Should they have STAYED?

OK to leave after, but not before???

Is this really all they need to know in order to respond to a Violent Intruder?

Why they need to know more:

If it is going to take an aggressive act to stop the killing, who do we hope is committing this act first?

If the goal is mitigate casualties, we know which type of resolution does that.

There is now a movement towards Proactive Response at official levels:

Are your plans in
agreement with these
recommendations, or contrary?

ALICE has led this movement since 2001.

Usual Opponent Concerns:
1. There could be more than one shooter.
2. They could run into the shooter if they evacuate.
3. How will we account for those who left?
4. Who will be liable?
5. Small children aren’t capable. “Stranger Danger”?
6. Special Ed is not addressed.
7. Rally Point could be a secondary attack location.
8. Evacuating folks will get in the way of police.
9. How will police distinguish friendlies from shooter
   if they get the gun away?
10. Counter Strategies are ridiculous
